Widening Florida's Turnpike Mainline
From North of Boynton Beach Boulevard to North of Lake Worth Road
Palm Beach County, Florida**

Dear Neighbor,

This letter is to notify you that Florida's Turnpike Enterprise (FTE) has modified its schedule for proposed roadway improvements in your area. FTE held a Public Information Meeting on October 16, 2008 where planned improvements along the Turnpike from Boynton Beach Boulevard to Lake Worth Road and at the Lake Worth Road interchange (Exit 93) were presented. The project discussed at that meeting included widening the Turnpike to eight lanes, installing noise walls associated with this widening, upgrading the Lantana toll plaza, and reconfiguring the Lake Worth Road interchange.

Due to a lack of funding, those planned improvements are delayed indefinitely, except for improvements at the Lake Worth Road interchange. A project for improving the Lake Worth Road interchange is still on schedule with construction projected to begin during the first full week of August 2009.

New ramps, a ramp plaza and a signal on Lake Worth Road will be constructed in the southwest quadrant of the Lake Worth Road interchange. These improvements will provide southbound traffic its own access to and from the Turnpike completely separate from northbound Turnpike traffic. The new plaza will be able to handle additional vehicles improving the safety and operations of this interchange. The northbound access to and from the Turnpike will remain unchanged.

If you have questions or concerns regarding any construction issues at this interchange, please contact me as your Public Information Officer: Nichole L. Kalil 1-800-749-PIKE (7453) or nichole.kalil@dot.state.fl.us.

Cordially,

Nichole L. Kalil
Public Information Officer
